

*Experience the unforgettable  
beauty of Australia's South West*

## Customer Testimonials

We are dedicated to providing quality nature-based tour experiences to all our guests. The following testimonials attest to our customer service ethos.

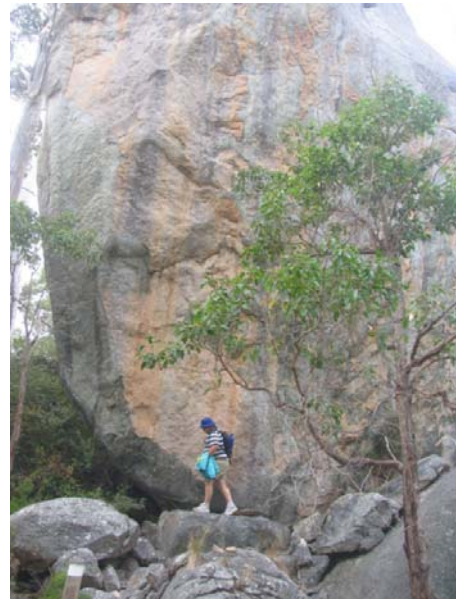

Thank you both for a wonderful few days break in the beautiful SW coast. We had a marvellous time and really enjoyed the walks and finding out so much about the local flowers, birds, trees and reptiles as well as local history. It was a wonderful change from our busy lives back in the big (or middle sized) smoke.

Thank you David for pacing the walks well and letting us take things in and see the magnificent scenery. We have some lovely memories.

Thank you so much for all your effort. And please thank Beverley for setting us up so well in the lovely Chalets.

All the best  
Sue and Robert Cunningham

2 Day "Taste of the Bibbulmun", November 2009

David's KNOWLEDGE, and as importantly, his never ending patience, support and friendliness made all the difference. I can't see how you could improve anything - we were treated like royalty without all the fuss.

Karma Chalets was absolutely perfect in terms of "the wilderness experience", but also for its great facilities and convenience and with a very accommodating host.

A great experience in a beautiful, remote part of the country, which a lot of people over here are unfamiliar with.

4 Day "Taste of the Bibbulmun", September 2009

We thought the tour you led was excellent in all dimension and have no criticisms at all. Food was great. And we certainly would recommend you to others.

The Bibbulmun Track was a great experience and great hit for all of us

It is difficult to select singular items about your tour. I loved it all. However, to try and be helpful, what I liked most about the tour was the diversity... inferring different places/experiences in walking. One day coastal walk, another day the Tingle Forrest and fauna and flora richness. The tour would be nothing without David. I say this because it is the personableness of David (and you too Lenore) that makes the holiday/walking most enjoyable. David is very knowledgeable and I enjoyed learning about the plants.

I also liked the fact that there was consideration to the age of my daughter and pace of walking. She kept up except towards the end of the 16.5km walk where she was walking slower. The pace was slowed and. No one seemed to mind. I really liked that too. JAZ says 'It was so fun and we saw kangaroos'.

Karma Chalets was exceptional. 5 Star. I was very surprised that there was so much food in the fridge and cupboards. The dinner at Forrest Winery was beautiful. The trip package including the divine lunches and extra treats (your yummy biscuit/cake and walking treats) were great!!!!!!
